On October 24, 2013 SNF was awarded the 2013 International Business of the Year Award by the World Trade Center of Savannah at the 2013 Savannah Internal Trade Center Expo. This is indeed a very high honor and we as a company are very proud of this accomplishment.

Each employee should take pride in the fact that their daily efforts are helping our company to achieve success and be recognized for our efforts across the board. Without everyone's continued efforts to work safely, to produce world class quality products for our customers, and to be good stewards of our community we would not be able to achieve such honors.
